eborcraft ltd

celebrating 125 years of British manufacturing

Eborcraft Ltd specialises in the manufacture of office and contract furniture. Our 28,000 sq ft manufacturing facility and Head Office is located on the outskirts of the historic City of York.

Our company's vision extends far beyond its core products of desks, conference tables and workstations. We are constantly evolving our product ranges to reflect current market trends, alongside advances in technology.

We design and manufacture with the highest standards of craftsmanship using knowledge and expertise passed from one generation to the next.

Our continued investment in the latest machinery and finishing processes means we can be flexible in design and production, enabling us to furnish individual requirements through our bespoke manufacturing service.

In addition to traditional wood veneer, we also offer contemporary MFC and Laminate furniture ranges, enhanced by the highly acclaimed Fenix® laminate. This variety of materials across all of our ranges, gives us the resource to provide high quality furniture to suit any budget.

From home office to Government office, schools to university and canteens to cafeteria, our furniture is versatile for any space.

Built by hand, assisted by machinery

Index by range

zenith	Contemporary desks and tables with matching storage options	pages	7-36
zenith executive	Modern desks with panel end, tapered or triangular frames and matching storage	pages	39-49
mode & mode-m	Tables, seating & storage perfect for collaborative environments, available with wooden or metal legs	pages	51-66

Finishes and Edging

All veneer, MFC and laminate tops are finished with a matching 2mm veneer or ABS edging.

Special Finishes

Zenith can be finished in a special veneer or stained to match a customers specific requirements. Priced on application.

Desks, Tables, Extensions & Workstations

Tops and ends are 30mm thick. Ends fitted with levelling adjusters. Modesty panels 18mm thick. Knock down construction using a cam fix system.

All desks and workstations are fitted as standard with 2 x No. 80 dia chrome cable ports.

Pedestals – Free Standing & Mobile

Desk high pedestals have a 30mm thick top. Drawers are white with a dowelled construction mounted on roller runners. Filing drawers are mounted on full extension ball bearing runners fitted with a filing rail for A4 and foolscap filing. Locks fitted as standard.

Side Filer

Side filers have a 30mm top and are 2 drawer only. Drawers are pull out metal filing frames for A4 and foolscap filing, mounted on ball bearing runners. Both drawers to lock with integral anti tilt mechanism. Locks fitted as standard.

Hinged Door Storage

Hinged door storage is 30mm thick. Unit fitted with an adjustable shelf for each compartment. The doors are on soft close hinges and lockable.

2 door units have 1 compartment

3 door units split into 3 compartments.

4 door units split into 2 equal compartments.

Combination Storage

Combination storage has a 30mm thick top. Unit fitted with an adjustable shelf in the door compartment. The doors are on soft close hinges and lockable. Unit has either a left or a right 4 drawer stack. Drawers are white with a dowelled construction mounted on roller runners.

1000 unit with a single door and 1 compartment

1500 unit with 2 hinged doors and 2 compartments

The unit is also available with the option of a 2 cuft fridge in the middle section.

Hinged Glass Door Bookcase

Hinged glass door bookcase has a 30mm thick top. Unit fitted with 2 adjustable wooden shelves enclosed by non-locking glass doors.

The larger unit is fitted with a central divider, 4 shelves and two pairs of hinged glass doors. The unit is designed to stand on top of storage.

The unit is also available with the option of glass shelves and display lighting.

Open Fronted Bookcase

Open fronted bookcase has a 30mm thick top and is a floor standing unit.

Hinged Door Lateral Storage

Hinged door lateral storage have a 30mm thick top. Cabinet fitted with locking hinged wooden doors. The ends are drilled at 32mm centres to accept shelves or lateral filing system (not included).

This unit is also available with an option for a hanging rail and dividers.

Locks fitted as standard.

Lateral Storage Fittings

Shelves - Wood

Fixed Lateral Filing Frames - Steel

Pull Out Filing Frames - Steel

Meeting Table Shaped Top Options

All wood veneer tops are 30mm thick with solid edging. The meeting tables are available in the following shapes:

Rectangular

Barrel

Flat D

Oval

Meeting Table Base Options

The meeting tables are available with the following bases:

Arrowhead Base

Panel Base

Wooden Leg Base

Aerofoil Base

Chrome Tapered Leg

Black Tapered Leg

Polished Chrome Triangular Leg

Agile Meeting Table

Each section fitted with 4 tapered legs.

The front 2 legs have castors fitted to easily manoeuvre. The meeting tables are available in the following shapes:

Rectangular

Barrel

Flat D

Oval

Veneers

Zenith veneers are selected from the best quality quarter cut veneers. Tops and exterior panels are finished with a 10% sheen water based lacquer tested to BS6250 severe rating to give a durable finish.

The contemporary designs within the range can be further enhanced with top inlays and feature inlays on door panels. These inlays can be cut from complimentary standard Zenith veneer options or from the wide selection of veneers available to Eborcraft.

Special Finishes

Zenith can be finished in a special veneer or the veneers can be stained to match a customers specific requirements. Priced on application.

Sit Stand Desk

The sit stand desk is controlled by an electric mechanism and has a height range of 625mm up to 1275mm.

Desk Frames

The Zenith Executive has the choice of 4 leg styles.

Veneered Panel End
Polished Chrome Tapered Legs
Black Tapered Leg
Polished Chrome Triangular Frame Legs
All leg options are supplied in a KD format.

Desk

Tops are 30mm thick and fitted with 2 x No. 80 diameter chrome cable ports.

Modesty Panels

Modesty panels come as standard with the Panel End desks with the choice of black or white MFC and an option for matching veneer. The tapered and triangular frame has the modesty panel as an additional extra in a choice of black or white MFC, or matching veneer.

Storage

Available with the choice of hinged door, sliding door with a 3 drawer pedestal or a sliding door option with a single hinged door. Door fronts, drawer fronts and plinths are finished as standard in either black or white MFC.

Mobile

Drawers are white with a dowel construction mounted on roller runners. Filing drawers are mounted on full extension ball bearing runners with a filing rail for A4 foolscap filing. The drawer fronts are finished in either black or white MFC as standard.

NB The colours shown are as accurate as the printing process will allow. Eborcraft recommend contacting the sales office for a sample of the required finish. We reserve the right to change the colour specifications without prior notice.

Standard Edging

All tops come with colour or wood grain matching edging as standard. Contrasting edging within our colour and wood grain laminate range is available on request.

Standard Wooden Leg Finishes

Oak
Beech
Walnut

Staining option available on request

Legs have a plywood core, veneered with solid edge detail.

Standard Metal Leg Finishes

Tapered Metal Legs - White & Black powder coated frame

Square Metal Legs - available in a variety of powder coated colours.

Wire management

The square wooden leg tables have a wire management system as standard.

Seat Pads

Stools are available with the option of foam upholstered seat pads.

Fabric - Camira Xtreme

Vinyl - Camira Vita

Storage

Open fronted, hinged door, sliding or locker format storage. Tops 25mm thick edged with 2mm matching edgings. Laminate unit carcass white MFC, tops and front in high pressure laminate from the standard laminate finishes. The cabinets have a choice of matching laminate plinth, wooden or metal legs.

NB The colours shown are as accurate as the printing process will allow. Eborcraft recommend contacting the sales office for a sample of the required finish. We reserve the right to change the colour specifications without prior notice.

Desks

Tops 25mm thick with 2mm matching edging. Sliding tops as standard. Desk includes drop down metal wire management tray.

Fixed Returns

Tops 25mm thick edged with 2mm matching edging. Fixed top.

Frame Finish Options

White
Black
Oak Wooden Legs

Freestanding Bench

Includes 2 end frames. Tops 25mm thick edged 2mm matching edging. Sliding top as standard. Desk includes drop down metal wire management tray.

Starter Bench

Includes 1 end frame and 1 intermediate leg. Tops 25mm thick edged 2mm matching edging. Sliding top as standard. Desk includes drop down metal wire management tray.

Intermediate Bench

Includes 1 intermediate leg, to be used in conjunction with starter units. Tops 25mm thick edged 2mm matching edging. Sliding top as standard. Desk includes drop down metal wire management tray.

End Bench

Includes 1 end frame, to be used in conjunction with starter or intermediate units. Tops 25mm thick edged 2mm matching edging. Sliding top as standard. Desk includes drop down metal wire management tray.

Bench Fixed Returns

Tops 25mm thick edged 2mm matching edging. Fixed top.

Conference End

Tops 25mm thick edged 2mm matching edging. Fixed top.

Height Adjustable Kit

Kit can be retro fitted to bench modules. Crank height adjustment with a height range of 740mm - 1005mm.

Electric height adjustment with a height range of 740mm - 1390mm.

Monoscreen

Aluminium extruded screen with raised post fix and feature acrylic divider. The screen features a 3 level accessory rail with a range of optional rail accessories.

Trio screen

Aluminium frame upholstered screen. The screen features a 1 or 3 level accessory rail with a range of optional rail accessories.

Cosy Screen

Fabric screen with soft profiled corners.

Echo Screen

Fabric screen with fabric trim. NB Grip screen is only compatible with MFC tops.

Mobile Storage Returns

Open fronted or sliding door mobile storage. Tops 25mm thick edged 2mm matching edgings. MFC units carcass white MFC with a choice of MFC tops from the standard MFC finishes. Laminate unit carcass white MFC, tops and fronts in high pressure laminate from the standard laminate finishes. Veneer units carcass, fronts and tops in standard veneer finishes. NB the veneer grain direction on the storage top is front to back.

Mobile Storage Ends

Open fronted, hinged door or drawer mobile storage. Tops 25mm thick edged 2mm matching edgings. MFC units carcass white MFC with a choice of MFC tops from the standard MFC finishes. Laminate unit carcass white MFC, tops and fronts in high pressure laminate from the standard laminate finishes. Veneer units carcass, fronts and tops in standard veneer finishes. NB the veneer grain direction on the storage top is front to back.

Static Storage Units

Open fronted, hinged door, sliding or locker format storage. Tops 25mm thick edged 2mm matching edgings. MFC units carcass white MFC with a choice of MFC tops from the standard MFC finishes. Laminate unit carcass white MFC, tops and fronts in high pressure laminate from the standard laminate finishes. Veneer units carcass, fronts and tops in standard veneer finishes. Optional castors are available. NB the veneer grain direction on the storage top is front to back. These units have the option to be mobile.

Mobile Pedestal

Mobile desk high pedestals have 25mm thick top, and desk under pedestals have 18mm top, both edged 2mm matching edging. MFC units carcass white MFC with a choice of MFC tops from the standard MFC finishes. Laminate unit carcass white MFC, tops and fronts in high pressure laminate from the standard laminate finishes. Veneer units carcass, fronts and tops in standard veneer finishes. Drawers white with a dowel construction mounted on roller runners. All drawers to lock. Top drawer in all pedestals fitted with a pen tray. Filing drawer mounted on full extension ball bearing runners, with a deep box drawer with rails for Foolscap filing. Desk high pedestals go at the end of benches/desks. NB the veneer grain direction on the top of the pedestals is side to side.

Storage Divider

Hinged door storage with open unit above. Tops 25mm thick edged 2mm matching edgings. MFC units carcass white MFC with a choice of MFC tops from the standard MFC finishes. Laminate unit carcass white MFC, tops and fronts in high pressure laminate from the standard laminate finishes. Veneer units carcass, fronts and tops in standard veneer finishes. End panels drilled full height to accept either wood shelves or Hettich lateral filing fittings (not included). NB the veneer grain direction on the storage top is front to back.

Hinged Door Lateral Storage

Tops 25mm thick edged 2mm matching edgings. MFC units carcass white MFC with a choice of MFC tops from the standard MFC finishes. Laminate unit carcass white MFC, tops and fronts in high pressure laminate from the standard laminate finishes. Veneer units carcass, fronts and tops in standard veneer finishes. Cabinet fitted locking hinged wood doors. End panels drilled full height to accept either wood shelves or Hettich lateral filing fittings (not included).

Standard Edging

2mm Oak ABS
2mm White ABS
2mm Birch Multiplex ABS

Option

Tables and seats come with the option of brushed aluminium laminate plinth.

Four Legged Table

Top 38mm thick with white epoxy powder coated KD frame table frame with 50mm square legs.

Open frame Table

Top 38mm thick with white epoxy powder coated KD frame from 40mm x 40mm tube.

Open frame Seat

White epoxy powder coated KD frame from 40mm x 40mm tube.

Circular Pedestal Base

Top 38mm thick. Coffee tables have 80mm diameter pedestal in White Epoxy powder with the choice of either a white or stainless base plate
Meeting and Poseur height have 80mm diameter pedestal with the choice of either a white or stainless base plate
Wire management option is available on the meeting and poseur height tables.

Seat Pads

Jive seating is available with the option of foam upholstered seat pads.

Fabric - Camira Xtreme
Vinyl - Camira Vita

Collaboration Unit

The media storage unit is supplied with access for monitor fixing and cabling. Table is standing height supplied kd
NB Screen and screen mounts not included.

Please note for Bird's Eye Maple and English Pippy Oak: all visible top panels, doors and drawer fronts finished in Bird's Eye Maple or English Pippy Oak as appropriate. All other panels finished in complementary veneer, ie Maple with Bird's Eye Maple veneer and Oak with English Pippy Oak veneer.

NB The colours shown are as accurate as the printing process will allow. Eborcraft recommend contacting the sales office for a sample of the required finish. We reserve the right to change the colour specifications without prior notice.

Boardroom Tables

All tops are 38mm thick with solid edging. Tops are finished with water based lacquer tested to BS6250 severe rating to give a durable finish.

The boardroom table tops are available in 6 different top shapes.

- Rectangular
- Semi-Circular ended
- Barrel
- Dual Curve
- Oval
- Visual

All boardroom tables are available with a choice of 6 base styles.

- Arrowhead Base
- Aerofoil Base
- Panel End Base
- Square Base
- Slim Box Base
- A Line Base

Cross Banding

Bird's Eye Maple/ Crown Cut Maple/ Black Line Inlay

Bird's Eye Maple/ Cherry/ Black Line Inlay

Crown Cut Maple/ Cherry/ Black Line Inlay

English Pippy Oak/ Oak/ Black Line Inlay

Crown Cut Maple/ American Black Walnut/ Black Line Inlay

First veneer finish indicates veneer on the inner panel. The 2nd veneer is the perimeter cross banding.

For pricing always use the price band for the veneer on the inner panel.

Fenix Laminates

All tops are 38mm thick with 1mm edging with the choice of complimentary or contrasting edging from our standard options.

Base styles are available as a veneer or Fenix laminate option.

Arrowhead Base

Panel under frame, panels 30mm thick with 10mm solid lipping. The arrowhead bases are fitted with 3 way plastic trunking, cable riser with matching veneered cover panels.

Aerofoil Base

Wing profile base with integral wire management capability including wire management trough as standard.

Panel End Base

30mm thick 10mm solid lip panels. Panel bases are fitted with 3 way plastic trunking cable riser with matching veneered cover panels, includes wire management trough as standard.

Square Base

Square base with hinged door access including wire management trough as standard.

Slim Box Base

Slim box base with hinged door access including wire management trough as standard.

A Line Leg

Polished Alloy cast alloy frame with black uprights. Linked with black circular cross rails.

Wire Management Options

The Oracle range comes as standard with optional integrated wire management facilities ranging from simple wooden cable ports to AV and Data power modules.

Coffee Tables

All tops are 38mm thick with solid edging. Tops are finished with water based lacquer tested to BS6250 severe rating to give a durable finish.

The coffee table tops are available in 3 different top shapes.

- Square
- Circular
- Dual Curve

All coffee tables are available with a choice of 2 base styles.

- Arrowhead Base
- Pedestal Base

Wall Panel Specification

The wall panelling system is designed as a modular structure with black MFC carcass designed to be fixed back to a wall. The carcass features cut outs and access holes to allow for the ease of wall fixing and cabling of AV and IT infrastructures. The structure is then clad with 18mm decorative panels secured with de-mountable button fixings

The wall panel system is quoted at 2400mm high but the top decorative panel is designed to be adjusted to give a height range between 2400-2600mm. Please ensure you advise us of the finished floor to ceiling height with the order.

AV Module

The AV module has the same MFC carcass but also includes a recessed back panel for the positioning of the monitor. The monitor back panel is supplied with a large cut out to allow the monitor VESA mount to be securely anchored to the wall.

NB Due to the large variations in monitors Eborcraft do not supply the monitor mounting bracket.

Whiteboard

The top 2 decorative panels are swapped for a full size dry wipe board panel mounted on lift off button fix fittings.

Contrasting Panels

To create a contrasting finish, a row of decorative panels can be finished in an alternative finished panel.

CPU Access Door

A matching hinged access door for fitting in a decorative panel to allow easier access to any IT equipment fitted behind the lift of panels.

AV Surrounding Lights

LED light strip fitted to the top and bottom of the recess on the AV module.

Product finishes available

Veneer Band 1		Veneer Band 2		Cross banding Options	
	Crown cut Oak Code – OAK		Crown cut Birds Eye Maple Code – BIRD		Birds Eye Maple /Natural Cherry
	Crown cut Walnut Code - WALN		Crown cut Pippy Oak Code – PIPP		Birds Eye Maple /Maple
	Crown cut Maple Code - MAPL				Burr Walnut /Walnut
	Crown cut Ash Code - ASH				English Pippy Oak/Oak
	Crown cut Cherry shade 3 Code – CHY3				Maple /Walnut
	Crown cut Steamed Beech Code - SBCH				Maple /Natural Cherry

Please note for Bird's Eye Maple and English Pippy Oak: all visible top panels, doors and drawer fronts finished in Bird's Eye Maple or English Pippy Oak as appropriate. All other panels finished in complementary veneer, ie Maple with Bird's Eye Maple veneer and Oak with English Pippy Oak veneer.

NB The colours shown are as accurate as the printing process will allow. Eborcraft recommend contacting the sales office for a sample of the required finish. We reserve the right to change the colour specifications without prior notice.

Cross Banding

Bird's Eye Maple/ Crown Cut Maple/ Black Line Inlay
 Bird's Eye Maple/ Cherry/ Black Line Inlay
 Crown Cut Maple/ Cherry/ Black Line Inlay
 English Pippy Oak/ Oak/ Black Line Inlay
 Crown Cut Maple/ American Black Walnut/ Black Line Inlay

First veneer finish indicates veneer on the inner panel. The 2nd veneer is the perimeter cross banding.

For pricing always use the price band for the veneer on the inner panel.

Desks, Tables, Extensions & Workstations

Tops 38mm thick, edged 10mm thick hardwood edges with bullnose detail. Panel ends 30mm thick, edged 10mm hardwood edge. Ends fitted with levelling adjusters. Modesty panels 18mm thick. Knock down construction using a cam fix system and dowels for added strength and rigidity.

Wire Management

Fitted as standard to table and workstations. Wire management comprises of 2 cable ports fitted to the top.

Pedestals - Free Standing & Mobile

Free standing desk high pedestals have 38mm thick top edged with bullnose detail. Desk under mobile pedestals have 38mm thick top, solid edged 3mm, and 10mm thick hardwood edge on front edge with bullnose detail. Drawers, white with a dowel construction mounted on roller runners, drawer fronts fitted brushed metal handle as standard. Top drawers in all pedestals fitted with pen tray. Filing drawers mounted on full extension ball bearing runners, fitted with filing frame for A4/Foolscap filing.

Coffee Tables

All tops are 38mm thick with solid edging. Tops are finished with water based lacquer tested to BS6250 severe rating to give a durable finish. The coffee table tops are available with 3 different top shapes:

- Square
- Circular
- Dual Curve

Filing Cabinets

2, 3 & 4 drawer. Top 38mm thick with front edge 10mm hardwood edge with bullnose detail. Drawers, white with a dowel construction mounted on full extension ball bearing runners. Deep box drawers with hanging rails for foolscap filing front to back. Drawers to lock with integral anti tilt mechanism. Drawer fronts fitted brushed metal handles as standard.

Side Filer

Top 38mm thick with 10mm hardwood edge, includes bullnose detail to front edge. Drawers have pull out filing frames for A4/foolscap filing mounted on ball bearing runners. Both drawers to lock, with integral anti tilt mechanism. Drawer fronts with fitted brushed metal handles as standard.

Sliding Door Storage

Top 38mm thick with 10mm hardwood edge includes bullnose detail to front edge. Fitted adjustable shelf enclosed by locking sliding wood doors with fitted brushed metal handles as standard. 1600mm unit fitted central divider with adjustable shelf each side.

Hinged Door Storage

As above but fitted locking hinged doors. 1600 unit fitted 2 pairs of hinged

Sliding Glass Door Bookcase

Top 38mm thick with 10mm hardwood edge, includes bullnose detail to front edge. Unit fitted 2 adjustable shelves enclosed by non-locking tinted glass doors with finger notch for opening. 1600mm unit fitted central divider with two pairs of sliding glass doors. Unit designed to stand on top of storage.

Hinged Glass Door Bookcase

As above but with toughened non-locking hinged glass doors and brushed metal handles.

Hinged Door Lateral Storage

Top 38mm thick with 10mm hardwood edge includes bullnose detail to front edge. Cabinet fitted locking hinged wood doors, doors with fitted brushed metal handles as standard. Ends drilled 32mm centres to accept shelves or systems interior fittings (not included).

Lateral Storage Fittings

Shelves	• Wood
Pull out filing frames	• Steel
Hat shelf/Hanging rail	• Wood/Steel
Door Mirror	• Glass

Social Unit

Top 38mm thick with 10mm hardwood edge includes bullnose detail to front edge. Full specification unit comes as standard with 2cuft. fridge in right hand compartment, central compartment fitted pull out serving shelf and bottle shelf, enclosed by a pair of locking hinged doors and the left-hand section is fitted with a single adjustable shelf. The lower specification unit is fitted with a single adjustable shelf only in all compartments.

Bow Fronted Storage

Top, 38mm thick with 10mm hardwood edge, includes bullnose detail to front edge as standard; remaining, 3mm thick with solid edge. Fitted with 2 locking curved doors to outer section and single straight door in middle section where applicable.

Combination Storage

Top, 38mm thick with 10mm hardwood edge, includes bullnose detail to front edge. Fitted with 2 locking curved doors to outer section, middle section fitted with either 2, 3 or 4 drawer locking pedestal stack.

NB The colours shown are as accurate as the printing process will allow. Eborcraft recommend contacting the sales office for a sample of the required finish. We reserve the right to change the colour specifications without prior notice.

Panel End Tables & workstations

Tops 25mm thick edged 2mm matching edging, supplied as standard with a left and right hand black plastic cable port. Panel ends 25mm thick edged 2mm matching edging with levelling adjusters, 18mm thick 3/4 height modesty panels with the option of a full height modesty. Knock down construction.

Pedestals - Free Standing & Mobile

Free standing and mobile desk high pedestals have 25mm thick top edged 2mm matching edging. Desk under pedestals have 18mm thick tops edged 2mm matching edging. Drawers white with a dowel construction mounted on roller runners. All drawers to lock. Filing drawer mounted on full extension ball bearing runners, with a deep box drawer with rails for Foolscape filing. NB the veneer grain direction on the top of 600d desk high pedestals is back to front and on 800d desk high pedestals is side to side.

Filing Cabinets

2, 3 and 4 drawers. Tops 25mm thick edged 2mm matching edgings. Drawers white with a dowel construction double extension roller runners and fitted, with a deep box drawer with rails for Foolscape filing side to side. All drawers to lock, with integral anti tilt mechanism. NB the veneer grain direction on the filing cabinet tops is back to front.

Side Filer

Tops 25mm thick edged 2mm matching edgings. Drawers have pull out filing frames for A4/Foolscape filing mounted on heavy duty double extension runners. Both drawers to lock, with integral anti tilt mechanism. NB the veneer grain direction on the side filer top is side to side.

Sliding Door Storage

Tops 25mm thick edged 2mm matching edgings, fitted adjustable shelf enclosed by locking sliding wood doors. Larger units fitted central divider with adjustable shelf each side. NB the veneer grain direction on the storage top is side to side.

Hinged Door and Desk Side Storage

Tops 25mm thick edged 2mm matching edgings, fitted adjustable shelf enclosed by locking hinged wood doors. Larger units fitted central divider with adjustable shelf each side and 2 pairs of locking hinged doors. NB the veneer grain direction on the desk side storage top is back to front.

Open Fronted Bookcase

Floor standing bookcase unit. Tops 25mm thick edged 2mm matching edgings supplied with adjustable shelves.

Sliding Glass Door Bookcase

Tops 25mm thick edged 2mm matching edgings. Fitted 2 (no) adjustable wooden shelves enclosed by non-locking clear sliding glass doors with finger notch for opening. Glass shelves and display lighting are available as an optional extra.

Hinged Door Lateral Storage

Tops 25mm thick edged 2mm matching edgings. Cabinet fitted locking hinged wood doors. End panels drilled full height at 32mm centres to accept either wood shelves or Hettich lateral filing fittings (not included).

Side Opening Tambour Fronted Lateral Storage

Tops 25mm thick edged 2mm matching edging. Fitted with locking silver plastic side opening tambour. NB Cabinet will only take 760 lateral fittings

Meeting Tables

Tops 25mm thick edged 2mm matching edgings. The veneered tops have the grain direction running along the length, single piece MFC tops grain direction along the length. Multi section MFC tops grain runs across the width. Tops come with three top shapes: Rectangular, Semi-Circular Ended and Barrel. All top shapes come with three leg options: panel end base, open frame base and pedestal base. The open frame and pedestal base as standard are white.

Coffee Tables

Tops 25mm thick edged 2mm matching edgings mounted on white pedestal base. Coffee tables come with two top shapes square and circular

NB The colours shown are as accurate as the printing process will allow. Eborcraft recommend contacting the sales office for a sample of the required finish. We reserve the right to change the colour specifications without prior notice.

Cross Banding

A complementary veneer is combined with a black inlaid line detail to create a decorative border around the door panels. The cross banding is available in various standard options.

For cross banding veneer pricing the main inner panel door veneer finish determines the price band.

The Avid Range

A range of modular stacking cabinets available in two standard widths, a standard depth with 3 height options to allow flexibility in the layout. The system is designed with the integration of AV equipment in mind and the cabinets are designed to create a void behind the cupboard runs for cabling along with the option of standard wire management cut outs.

Plinths

All base units are supplied with integrated 100mm plinth. The plinths are fitted with 4 metal levelling adjusters accessed from inside the cabinet.

Cabinets

Cabinets are specified as either base units including a plinth for floor standing or as top units for stacking on top of a base unit. The cabinets are either open fronted, fitted with locking hinged wood doors, non-locking hinged glass doors or on the 2000 series 800 unit only available with lateral filing drawers. The cabinet carcasses come with both the left and right hand ends projecting 50mm past the inset back, to create a cavity for cable routing or to allow for end panel scribing for uneven or out of square walls. All adjoining end panels are drilled to allow adjacent cupboards to be bolted together.

NB All storage runs above the 1200 height should be secured back to the wall.

Cupboard Internal Fittings

All base and top units except filing drawer modules are supplied without internals. The required fittings are specified and costed as additional requirements.

Wooden Shelves

Standard 25mm thick with 0.6 edge veneer on front edge mounted on standard adjustable shelf clips. Shelf finished in a veneer to match the internal carcass finish.

Glass shelf

6mm toughened clear glass shelves mounted on standard adjustable shelf clips.

Wire Management Options

WM1 Base unit - 300mm L x 150mm H cut out in the back panel at the bottom for access to wall sockets with 80 dia cable port in the top of the back panel for cable routing. This option applies to the 2000 and 4000 series base units.

WM2 Top units - 2 x 80 dia cable ports fitted in the top and the bottom of the back panel for cable routing. This option applies to the 4000 series top units.

WM3 Base Unit - 300mm L x 150mm H cut out in the back panel at the bottom for access to wall sockets with 2 x 80 dia cable ports in the middle and top of the back panel for cable routing. This option applies to the 6000 series base units.

WM4 Audio-visual - 4 x 80-dia cable ports in the top and bottom corners of the back panel for cable routing. This option applies to the 7000 series top unit.

WMT - Wire management trunking, a simple 3 compartment plastic trunking supplied in 1.5m lengths for managing cable routing.

Pull out Filing Frame

Standard steel pull out filing cradle mounted on full extension ball bearing runners. Pull out cradles available with integral anti-tilt system.

NB Pull out cradles should only be fitted in base units.

Hanging Rail

Chrome hanging rail supplied with 2 screw fix end caps.

Fridge

A 2 cu ft fridge is supplied to fit within the cupboard. This option is only available on the 2000 series base unit. The cupboard where this option is selected is supplied as standard with an offset divider panel with the fridge fitted on the left hand side and 2 adjustable narrow shelves to the right hand side. The left-hand side back panel is cut out for fridge ventilation.

Low Voltage Lighting

Fitted with single low voltage light fitting and supplied with single transformer unit. When more than one light fitting is required the single transformer is used to power up to a maximum of 4 separate units.

NB transformer 13amp plug not supplied.

Dry Wipe Option

Both inside faces of the doors on the audio visual unit are finished in white gloss laminate.

Top Fascia Panels

The top fascia is designed either as a decorative fascia or as a scribing component where the cupboards are fully fitted to the ceiling. The height of the fascia is 100mm as standard to match the plinth height. The height can be specified for fully fitted installations.

Side Infill Panel

18mm thick panel edged 2mm thick veneer all round. The panel is supplied with fixing fillets and brackets to allow scribing to walls where the cupboard run is fully fitted. The length and width should be specified to suit the application.

Corner Infill

18mm thick panels to match adjacent cupboards. The panel is supplied with fixing screws to space adjacent cupboards that are fitted into a 90 degree corner.

Crescent range

Crescent veneers are selected from the best quality quartered cut veneers.
The recessed Curved panel is finished in White high pressure laminate as standard.
Other laminates are available and priced on application.

Veneer panels are finished with a 10% sheen water based lacquer tested to BS6250 severe rating to give a durable finish.

Special finishes

Crescent can be finished in a special veneer or the veneers can be stained to match a customers specific requirements. Priced on application.

NB The colours shown are as accurate as the printing process will allow. Eborcraft recommend contacting the sales office for a sample of the required finish. We reserve the right to change the colour specifications without prior notice.

Cross Banding

For pricing purposes use the price band for the inner veneer panel ie the first veneer finish as listed below.

Birds Eye Maple/ Crown Cut Maple/ Black Line Inlay

Birds Eye Maple/ Cherry/ Black Line Inlay

Crown Cut Maple/ Cherry/ Black Line Inlay

English Pippy Oak/ Oak/ Black Line Inlay

First veneer finish indicates veneer on the inner panel.

2nd veneer is the perimeter cross banding.

Front Panel Combination Veneering

For pricing purposes the module price is based on the highest veneer price band of the 2 complementary veneers selected.

Low Unit Combination Veneering

Front panel is split in height with 2 complementary veneer combinations.

High Unit Combination Veneering

The front panel is split into three sections, the top and bottom section being the same veneer and the middle section a complementary veneer lined to match through with the veneering on adjacent low units.

Staining to Special Finish

Veneer colour staining is available with the fusion Counter system. Note the colour matching option may not be available on certain combinations of veneers when either the cross banding or the combination veneering option is required.

Veneer Corporate Logos

The option of laser cut inlaid veneer logos is available on all front panels and Privacy screens. Prices are quoted based on customer requirements. Not available on MFC finishes.

General Counter Specification for Low and High Units

All tops are 25mm thick edged with a 2mm edge matching edge. All modules are fitted with a front mounted flush 18mm thick modesty panel incorporating a recessed metallic kick plate. High and Low units are supplied with a reduced depth intermediate support panel fitted with levelling adjusters. For end modules, if required, the full width panel must be specified. Each counter module is supplied with connector bolts for joining module runs together. The units are supplied assembled.

Feature Fronts

The feature front is a 25mm thick plain laminate decorative structure.

Low Quadrant Units

30, 45, 60 & 90 degree. Tops are 800mm deep; the external radius of the top is 800mm. The unit comes as standard with intermediate support panel for knee space. The units are fitted with a full height curved modesty panel.

High Quadrant Units

30, 45, 60 & 90 degree. Main tops are 800mm deep and the counter tops are 350mm deep with a clear height of 400mm above the main top; the external radius of the top is 800mm. The main top comes as standard with reduced depth intermediate support panel for knee space and the counter top with a reduced depth intermediate support panel. The units are fitted with a full height curved modesty panel.

Low Annular Units

30, 45, 60 & 90 degree. Tops are 800mm deep, the external radius of the top is 1200mm or 1500 with an internal radius of 400mm and 700mm. The unit comes as standard with reduced depth intermediate support panel for knee space. The units are fitted with a full height curved modesty panel.

High Annular Units

30, 45, 60 & 90 degree. Main tops are 800mm deep and the counter tops are 350mm deep with a clear height of 400mm above the main top; the external radius of the top is 1200mm or 1500mm with an internal radius of 400mm and 700mm. The main top comes as standard with reduced depth intermediate support panel for knee space and the counter top with a reduced depth intermediate support panel. The units are fitted with a full height curved modesty panel.

Low Annular Internal Radius Units

30, 45, 60 & 90 degree. Tops are 800mm deep, the external radius of the top is 400mm with an internal radius of 1200mm. The unit comes as standard with reduced depth intermediate support panel for knee space. The units are fitted with a full height concave curved modesty panel.

High Annular Internal Radius Units

30, 45, 60 & 90 degree. Main tops are 800mm deep and the counter tops are 350mm deep with a clear height of 400mm above the main top; the external radius of the top is 400mm with an internal radius of 1200mm. The main top comes as standard with reduced depth intermediate support panel for knee space and the counter top with a reduced depth intermediate support panel. The units are fitted with a full height concave curved modesty panel.

Low Radial Units

30 & 45 degree. Tops are 800mm deep, the external radius of the top is 2000mm with an internal radius of 1200mm. The unit comes as standard with reduced depth intermediate support panel for knee space. The units are fitted with a full height curved modesty panel.

High Radial Units

30 & 45 degree. Main tops are 800mm deep and the counter tops are 350mm deep with a clear height of 400mm above the main top; the external radius of the top is 2000mm with an internal radius of 1200mm. The main top comes as standard with reduced depth intermediate support panel for knee space and the counter top with a reduced depth intermediate support panel. The units are fitted with a full height curved modesty panel. The radial sections are supplied pre-assembled.

Low Radial internal radius Units

30 & 45 degree. Tops are 800mm deep, the external radius of the top is 1200mm with an internal radius of 2000mm. The unit comes as standard with reduced depth intermediate support panel for knee space. The units are fitted with a full height curved modesty panel.

High Radial internal radius Units

30 & 45 degree. Main tops are 800mm deep and the counter tops are 350mm deep with a clear height of 400mm above the main top; the external radius of the top is 1200mm with an internal radius of 2000mm. The main top comes as standard with 400mm wide reduced depth intermediate support panel for knee space and the counter top with a reduced depth intermediate support panel. The units are fitted with a full height curved modesty panel.

Low Corner Units

45 & 90 degree. Tops are 800mm deep. The unit comes as standard with reduced depth intermediate support panel for knee space. The units are fitted with a full height and straight modesty panel.

High Corner Units

45 & 90 degree. Main tops are 800mm deep and the counter tops are 350mm deep with a clear height of 400mm above the main top. The main top comes as standard with reduced depth intermediate support panel for knee space and the counter top with a reduced depth intermediate support panel. The units are fitted with a full height and straight modesty panel.

Low Straight Units

Tops are 800mm deep. The unit comes as standard with reduced depth intermediate support panel for knee space. The units are fitted with a full height modesty panel.

High Straight Units

Main tops are 800mm deep and the counter tops are 350mm deep with a clear height of 400mm above the main top. The main top comes as standard with reduced depth intermediate support panel for knee space and the counter top with a reduced depth intermediate support panel. The units are fitted with a full height modesty panel.

Full width Wood panels

NB This option must be specified for any end counter module.

Glass Shelves

A 10mm thick clear toughened plate glass shelf unit mounted on 200mm high polished chrome support pillars for low units or 25mm high mounting for high units.

Privacy Screens

A 18mm thick veneered panel 500mm wide mounted to the front modesty panel to create a discreet level of privacy.

Under Counter Open Fronted Storage

Floor standing open fronted storage cupboard, tops and carcass panels all 18mm thick. Unit includes a single adjustable shelf and is supplied with levelling adjusters to allow cabinet to be fitted up to the underside of the counter top.

Under Counter Sliding Door Storage

Floor standing locking sliding door storage cupboard, tops and carcass panels all 18mm thick. Fitted adjustable shelf enclosed by locking sliding wood doors fitted with silver bow handle as standard. Unit supplied with levelling adjusters to allow cabinet to be fitted up to the underside of the counter top.

Under Counter Hinged Door Storage

Floor standing locking hinged door storage cupboard, tops and carcass panels all 18mm thick. Fitted adjustable shelf enclosed by locking hinged wood doors fitted with silver bow handle as standard. Unit supplied with levelling adjusters to allow cabinet to be fitted up to the underside of the counter top.

Desk Under Mobile Pedestal

Top and carcass panels all 18mm thick. Drawer sections fitted with auto locking, drawers, white with a dowel construction mounted on roller runners, filing drawers mounted on full extension ball bearing runners and fitted with a hanging filing cradle, filing drawer fitted with anti-tilt castor. Unit mounted on 4 locking castors.

Counter Top Pigeon Hole Unit

Open A4 pigeonhole unit. All panels 18mm thick including 2 adjustable shelves. Unit to sit under high unit counter top.

Product Strength and Stability

All products are designed to meet the strength and stability requirements of BS4875 and BS EN 527.

Care and Maintenance of Veneer

All the materials and components used in our products are carefully selected for quality and durability.

The lacquers we use for finishing on our veneer products require no maintenance.

Cleaning should be carried out using a damp cloth and soft duster, a little vinegar or detergent can be added to the water to remove greasy marks.

Spray or wax polishes must not be used.

Eborcraft cannot be held responsible for damage to the lacquer surface as a result of using these materials.

Natural Behaviour of Veneer

Most natural timbers change colour on exposure to light. The amount and speed of change varies according to species of timber, the length of exposure and the intensity of the light.

It is therefore likely that there will be an initial colour mismatch between new items of furniture and those that have been in use for some time; this colour difference should even out over a period of time.

Wood is a natural material and we cannot guarantee the continuity of grain and texture in products or samples.

Wood veneers can be subject to surface cracking as a result of prolonged exposure to low levels of humidity; our guarantee does not cover this phenomenon.

Care and Maintenance of Laminate and MFC

Laminate and MFC surfaces are easy to maintain. They simply require occasional cleaning with warm soapy water and a soft cloth, and then dried with a soft dry cloth.

We advise against using an abrasive sponge or scourer as this can scratch the surface.

Caring for laminate and MFC products is simple; however, we also have several recommendations that will help you keep it in excellent condition. It is good practice to mop up any spillages immediately, using a clean dry cloth. Laminate and MFC tops are resistant to most household products, though not completely stain proof. If the worktop becomes marked with a tough stain such as ink, polish, nail varnish or adhesive, apply a small amount of organic solvent – such as acetone – to a damp, soft cloth, and rub over the mark in a circular motion.

Ecology

As an FSC accredited organisation we use timber-based materials, which are sourced from countries which have a defined and implemented policy for the management of timber resources.

In order to sustain timber resources, we will choose the most environmentally friendly veneer available to us for the underside.

Specifications

We reserve the right to alter designs and specifications without notice.

Guarantee

All our products are guaranteed for a period of three years against any failure due to faulty materials or workmanship

1. In these Conditions:

'We' 'us', 'our' or 'the Company' shall mean Eborcraft Limited; 'you', 'your' or 'the Customer' shall mean the person, firm, company or organisation with whom a Contract is concluded; 'Conditions' shall mean these Terms and Conditions of Business including any variation or amendment made in accordance with paragraph 2; 'Contract' shall mean any contract for the sale and/or supply of Goods concluded between the Customer and the Company; 'Goods' shall mean any office furniture, equipment or associated goods offered for sale or supply by the Company. These Conditions set out the terms prevailing at the time of print upon which we are prepared to enter into a Contract with you. The Conditions will supersede and apply to the complete exclusion of any other terms or conditions and may not be varied or amended without our express prior agreement in writing. These Conditions may be varied by us at any time without prior notice and reference should be made to our website www.eborcraft.co.uk for the latest Terms and Conditions of Business.

2. Conditions:

These Conditions set out the terms prevailing at the time of print upon which we are prepared to enter into a Contract with you. The Conditions will supersede and apply to the complete exclusion of any other prior terms or conditions and may not be varied or amended without our express prior agreement in writing. These Conditions may be varied by us at any time without prior notice and reference should be made to our website www.eborcraft.co.uk for the latest Terms and Conditions of Business.

3. Prices

All prices quoted for Goods are subject to alteration without prior notice and will be charged at the rates ruling at the date of despatch. All prices for Goods are exclusive of VAT, which will be charged at the rate ruling at the date of despatch. Any order for Goods of less than £2,500 retail value will be subject to a £100 Nett surcharge and we reserve the right to charge additionally for delivery. These additional charges if any will be confirmed at point of order.

4. Payment

All sums invoiced pursuant to any Contract are payable by you on the last business day of the month next following the month in which the relevant Goods are delivered, time being of the essence. Any failure to pay on the due date will result in the immediate suspension of all further deliveries of Goods until payment has been received and we shall have the right to require payment in advance as a condition of making any further deliveries. We shall have the right to charge interest pursuant to the Late Payment of Commercial Debts (Interest) Act 1998 on any sums not paid on their due date

5. Delivery

Unless we have specifically agreed alternative arrangements in writing, all Goods will be delivered to your business premises address, delivery direct to your end customer will be subject to an additional charge of 5% of the Contract price with a minimum charge of £150 net. You accept that it is your responsibility to ensure the provision of adequate assistance to our driver for unloading of the Goods at the time of delivery

6. Ownership

Notwithstanding delivery, title and property in all Goods will remain with us until we have received payment in full for (a) all Goods subject of the Contract and (b) all Goods supplied to you under any Contract whatsoever. Risk in all Goods will pass to you from the moment of delivery. Until we have received full payment for any Goods delivered to you, you will hold them as bailee for us, you will ensure they are clearly marked as our property and stored separately from any other goods. If you sell any Goods before title has passed to you, you shall be deemed to have sold them as our fiduciary agent (although such agency will not give you any right to bind us to any contract with your customer) and you will hold any proceeds of such sale in trust on our behalf in a separate account clearly denoted as being held on our behalf.

7. Default/Insolvency

If any sum due to us under a Contract is not paid on the due date or if you become insolvent or any step is taken to place you into liquidation or bankruptcy or if you have any receiver or administrator appointed over your business or affairs: (a) we shall have the immediate right to require the return of any Goods which have not been paid for and to enter your premises for the purposes of collecting them; (b) We shall be under no further obligation to deliver any Goods to you and we shall have the right to cancel all outstanding Contracts whilst retaining the right to claim from you any losses incurred upon the disposal of the Goods which are the subject of them.

8. Liability

We shall use our reasonable endeavours to perform our obligations under any Contract in accordance with estimated delivery or completion dates and times but we shall have no liability for any failure to achieve these for whatever reason. In particular we shall have no liability to you for any indirect or consequential losses or damages howsoever arising from any breach, delay or non-performance. You will indemnify us from and against any and all claims from any third parties or any of your officers, employees or agents whether in respect of personal injury or death or otherwise howsoever arising and whether in respect of any Contract or otherwise No claim or liability for any damage or defect to any Goods will be accepted unless it has been made in writing within 48 hours of the time of delivery of the Goods in question. In this regard, you accept that it is your responsibility to fully inspect all Goods at the time of delivery.

9. Variation to specification

We reserve the right to modify or vary the specification of the Goods without prior notice

10. Cancellation/Assignment

You may not cancel or assign any Contract without our prior written agreement. We shall be entitled to make a charge for cancellation of any Contract for specific or adapted Goods where we have commenced work on the Goods in question.

11. Product Guarantee

Subject to the following provisions Eborcraft warrants that the Goods will correspond with their specification at the time of delivery and will be free from defects in material and workmanship for a Period of three years from delivery. We shall be under no liability in respect of any defect arising from fair wear and tear, wilful damage, negligence, abnormal working conditions, failure to follow Eborcraft's care instructions (whether oral or in Writing). This warranty will be void if the total price for the Goods has not been paid by the due date for payment. The warranty does not extend to parts, materials or equipment not manufactured by Eborcraft, in respect of which the Customer shall only be entitled to the benefit of any such warranty or guarantee given by the manufacturer to Eborcraft. All our products are made to order, under our normal guarantee, where items are deemed to be faulty we reserve the right in the first instance to have the faulty items returned to us for the fault to be resolved
