Specification Details

Survey and Specification:

The specification of all StorageWall and associated products is the direct responsibility of the customer. A site survey is essential. We are able to provide a support service to customers planning StorageWall.

It is the responsibility of the customer to provide comprehensive and accurate information. Please ensure that all dimensions are recorded. Dimensions supplied will be perceived as accurate. Please supply any necessary additional information taking into consideration skirting boards, light switches, fire alarms and any pipe work etc.

Design:

All units are 2200 / 2500mm high and 1000mm or 500mm wide as standard providing ample storage. To create a bespoke, built in appearance the units can be specified with side panel extensions, infill panels and fascia panels. These are available in a range of sizes and can be scribed on site to suit and fixed using a push fit mechanism.

Each unit is available as starter and add on units allowing complete StorageWalls to be created made up of a range of storage solutions. The units have 25mm shared side panels and 25mm top panels, base panels and shelves.

Carcasses are supplied in White with a range of door and fascia finishes available. Please see page 236 for details.

The StorageWall system has been designed with a number of integral features as standard to offer a complete storage solution. As well as double door storage units that can be specified with MFC shelves, lateral filing shelves, pull out filing cradles and slotted shelves, there are locker, recycling and file drawer units available as standard.

Fitting:

The fitting of StorageWall units has been designed to be as straightforward as possible, however all installations are different and need to be treated as such. Installation of StorageWall should be undertaken by experienced fitters.

StorageWall units are provided unassembled and with separate components for assembly on site. StorageWall includes adjustable levelling feet, each capable of carrying 200kg max. These feet provide 45mm of adjustment to suit un-level floor surfaces. If more adjustment is required due to un-level floors, please contact us.

All scribe panels are provided as finished MFC panels with ABS edging to all edges. These can be scribed and cut down to suit site conditions. The specification of the correct size panels and the cutting of these panels is the responsibility of the customer. It is advisable to specify oversized scribe panels wherever possible. This will allow as much tolerance on site as possible and will reduce the margin for error. All wall fixings are made at the fitter's discretion and require suitable fixings for the wall being affixed to.

Push fit fixings have been provided wherever possible to provide a quick and effective installation solution. This system also allows panels to be added and removed easily without causing damage. This is particularly useful when scribing panels.

Our range of modular reception counters can be assembled in a number of configurations, allowing the user to specify a counter that harmoniously fits within its environment, without incurring the cost associated with tailor made reception counters.

Each complete section can be used on its own or linked to another unit to create larger, bespoke configurations. A linking device facilitates simple re configuration of the units.

When specifying linked units, add the recessed leg pack to allow increased leg room (see page 187). When ordering, please suffix the code with the appropriate MFC colour option followed by the Acrylic colour (below) i.e.

MOREC08SLSWW - Sorrento Walnut MFC/White Acrylic

AutoCAD blocks of each counter and space planning services are available, contact our design studio for further details.

MFC & Acrylic Colours

See Page 236 for MFC finish options available in the 25mm panel category.

We use Parapan 4mm solid acrylic panels on all of our reception counters. Parapan is the finest quality high gloss solid acrylic on the market and the high gloss finish is on both sides of the material. Parapan acrylic is highly durable, moisture resistant and UV stable, so it will not fade. Available in the following colours as standard (other colours available upon request).

Alpine White (W)

Cream White (CW)

Light Grey (LG)

Stone Grey (SG)

Zest Yellow (Y)

Dark Cyan (DC)

Royal Blue (RB)

Black (BK)

Prices	Are recommended retail (excluding VAT).
Dimensions	Are in millimetres and are nominal.
MFC Finishes	Beech, California Oak, Carbon Grey, Dove Grey, Driftwood, Jura Oak, Maple, Montana Oak, Onyx Black, Pebble Grey, Romana Cherry, Seal Grey, Soft Black, Sorrento Walnut, Stone Grey, Tobacco Oak, White Pedestal and storage unit carcass are finished in matching finish unless otherwise specified. White fronted tambour units, lockers and storagewall carcasses are finished in White unless otherwise specified. Onyx Black and Seal Grey tops limited to 1 year warranty.
Metalwork Finishes	Black (RAL 9005) / Aluminium Silver (RAL 9006) / White (RAL 9016)
Desking	All tops are 25mm thick MFC unless otherwise specified with impact resistant 2mm ABS profiled edges. All desking incorporates metal to metal fixings.
Pedestals	Tops are 25mm MFC thick on desk high pedestals, 18mm MFC on high mobile pedestals, with 2mm ABS profiled edges. Carcass and drawer fronts are 18mm thick. Flyover drawer fronts are fitted as standard. Handles are available as an optional extra. All pedestals are lockable. Master keys/replacement keys available - P.O.A. Full extension filing drawers with A4 or foolscap filing. Standard drawers are fitted with metal roller runners with a 25kg dynamic load capacity. Heavy duty pedestals are fitted with full extension ballbearing runners and an anti-tilt mechanism. 25kg load bearing capacity per drawer anti tilt mechanism is fitted as standard to heavy duty pedestals.
Storage	Tops are 25mm thick MFC with 2mm ABS profiled edges, carcass and fronts are 18mm thick. All units are lockable and fitted with levelling feet, adjustable from within the unit. Storage units are fitted with an internal adjustment system allowing full adjustability, supplied without shelves unless otherwise specified. Tambour fronts are supplied in Silver or White with matching carcass as standard.
Screens	S1 screens are a solid core fabric wrapped screen with fabric and rubber edging. S2 screens include linkable aluminium end uprights with aluminium toolrail. S3 multi functional aluminium toolrail, suitable for back to back configurations. S4 screens are a full aluminium frame as standard including toolrail. Desk mounted screens include mounting brackets as standard.
Guarantee	All products are guaranteed for a period of 5 years structural and 2 years moving parts, finishes & fabrics. This applies to seating used in a normal eight hour working day. For further information please contact customer services.
Manufacturing Procedures	All procedures are operated in line with ISO 9001 : 2015. All products are designed & manufactured in the UK. In the interests of design and development we reserve the right to alter specifications without prior notice.
Environmental Policy	All timber used is manufactured from managed and sustainable resources. Our manufacturing facilities are approved to the environmental standard 14001:2015 and FSC Chain of Custody certification.
Samples	All samples will be invoiced at the time of despatch. Provided the sample is returned within 30 days in good condition, a credit note will be issued. If however, a sample is not returned within the 30 day period it will be deemed sold and collection of the invoice amount will proceed. Any request for bespoke samples will be treated as an order and will therefore be chargeable.
Conditions of Business	This price list is subject to our standard terms and conditions of business, available on request.

All products are designed in accordance with the following standards:

BS EN 1335-3:2009	Office furniture. Office work chair. Safety test methods.
BS EN 1335-2:2009	Office furniture. Office work chair. Safety requirements for users weighing up to 110Kg and used for up to 8 hours a day.
BS EN 1335-1:2000	Office furniture. Office work chair. Dimensions. Determination of dimensions.
BS EN ISO 9241-5:1999	Ergonomic requirements for office work with visual display terminals (VDT's). Workstation layout & postural requirements.
BS EN 16139:2013	General contract use Meeting room and cafeteria chairs - structural testing.
BS 5459-2:2000 + A2:2008	Office furniture. Specification for performance requirements and tests. Office pedestal seating for users weighing up to 150 kg and used up to 24 hours a day.
S 7176:2007 + A1:2011	Specification for resistance to ignition of upholstered furniture for non-domestic seating by testing composites.
BS EN 527-1:2011	Office furniture desk and table dimensions.
BS EN 527-2:2002	Office furniture desk and table mechanical safety requirements.
BS EN 527-3:2003	Office furniture desk and table methods to test for the determination of strength and stability.
BS EN 14073-2:2004	Office storage furniture general safety requirements.
BS EN 14073-3:2004	Office storage furniture methods for the determination of stability and strength of structure.
BS EN 14074:2004	Office furniture desk and tables and storage, test methods for the determination of strength and durability of moving parts.
BS 4875-7:2006	Test Level 4 – Domestic and contract storage furniture performance requirements – shelves.
BS 4875-7:1998	Strength and stability of furniture. Methods for determination of strength and durability of storage furniture.
BS 4875-8:1998	Strength and stability of furniture. Methods for determination of stability of non-domestic storage furniture.
BS EN 1023-1:1997	Office furniture, screens – dimensions.
BS EN 1023-2:2000	Office furniture, screens - mechanical safety requirements.
BS EN 1023-3:2000	Office furniture, screens – test methods.

This code applies to all of our operations and sets out the minimum standards expected from our staff in their internal and external dealings with colleagues, customers, and third parties.

1.1 Basic Standards of Conduct

- (a) We will conduct every aspect of our business with sincerity, integrity and honesty. We respect human rights and the interests of our employees, customers and third parties.
- (b) We will respect the legitimate interests of third parties with whom we have dealings in the course of our business.

1.2 Employees

- (a) We are committed to creating and maintaining a safe and healthy working environment for our employees.
- (b) We strive to create a workplace in which there is mutual trust and respect. An environment where every employee feels a responsibility for the performance and reputation of our company.
- (c) We respect the individual and each other's rights, customs and traditions including the right to freedom of association and the right to decide.
- (d) We will work towards achieving a diverse workforce, recruiting, employing and promoting employees only on the basis of objective criteria and the qualifications and abilities required for the job to be performed.
- (e) We will maintain good communications with employees through our information and consultation procedures.
- (f) We will assist employees in realising their potential.

1.3 Customers

- (a) We are committed to supplying quality products and excellent levels of service. We are flexible to and understand our customers' needs and demands.

1.4 Compliance with Law

- (a) We will comply with the laws and regulations applicable wherever we do business.

1.5 Business Integrity

- (a) We will not offer, give, seek or receive, either directly or indirectly, inducements or other improper advantages for business or financial gain and no employee may offer, give, seek or receive any gift or payment which is, or could be construed as such.

1.6 The Environment

- (a) We are committed to making continuous improvement in the management of our environmental impact.
- (b) We will work with our partners to promote environmental care, increase understanding of environmental issues and disseminate good practice.

1.7 Community Involvement

- (a) We endeavour to be a good corporate citizen and to fulfil our responsibilities to the societies and communities in which we operate.

Environmental Policy

We are committed to providing superior products whilst minimising any adverse impact to the environment. We recognise the importance of environmental protection and our duty to operate both responsibly and also in compliance with all legal requirements relating to the design, manufacture and distribution of office furniture. We aim to continually improve our environmental performance through the implementation of the three R's – Reduce, Reuse and Recycle. It is our priority to encourage our customers and suppliers to do the same, not only is this sound commercial sense, but we all have a duty of care towards future generations.

All MFC panels in standard products are procured only from suppliers which are certified as using timber from sustainable sources. In addition, as Forest Stewardship Council® (FSC®) certificate holders we are committed to complying with the Policy for the Association of Organizations with FSC, FSC-POL-01-004 V2-0 EN, and FSC's mission to promote the environmentally appropriate, socially beneficial and economically viable management of the world's forests. Our 600kW Biomass boiler not only supplies our factory with heating but reduces our reliance on fossil fuels whilst at the same time improving our wood waste recycling rate.

Our commitment to the environment is reflected in our ISO 14001 Environmental Management System accreditation and also our ISO 9001 Quality Management System accreditation of which environmental concerns forms a substantive part. As a company we strive to always be environmentally aware and aim to continually improve our environmental performance through the implementation of the following:

- Assess and regularly re-assess the environmental effects of the Organisation's activities
- Training of employees in environmental issues
- Minimise material wastage
- Minimise energy wastage
- Promote the use of recyclable and renewable materials
- Reduce and/or limit the production of pollutants to water, land and air
- Control noise emissions from operations

We have a legal and ethical obligation to ensure our purchasing practices and standards place a priority on safety and are environmentally sound, efficient and well managed on behalf of our businesses, employees and customers. We work with our suppliers to ensure that they understand and adhere to our practices and business standards. There is no higher priority for us than the safety of our colleagues, customers, suppliers and local communities. We are committed to operating to the highest of legal standards, these standards are contained in our company policies including, Health & Safety, Environment, Quality, Equal Opportunity and Human Rights.
